Dear Sir/Madam,

Greetings from Nyros Technologies,

Nyros Technologies is a IT Design & Development company that has a Global Team providing world class IT Solutions and Services to help customers all over the world. It is based in Kakinada, India and USA.

Nyros Mentorship Program(NMP) is an initiative launched by Nyros Technologies in 2020 that enables graduates to reach their dream career destination by matching their skills and personal abilities with futuristic market needs.

Mr. Pavan Kumar Mangalampalli, CEO of Nyros Technologies is taking sessions in colleges to help students titled "Reaching your Career Destination"

CEO Profile : <https://in.linkedin.com/in/mangalampalli>

Many times students have high aspirations and lofty goals, especially at the beginning of their career, yet they lack the right guidance and then one small bump in the road they tend to give up on goals. Our CEO would be glad to connect with your students to empower them to create their path to reach the career destination they want to go to!

Following the session, we will be announcing various internship opportunities available at Nyros for the students of all streams. Nyros will also be offering Jobs to the students that have out performed during the internship.

Please let us know if you have more questions about this initiative and a convenient date and time to schedule a session in your college seminar hall preferably for final year students of all streams.

Here is a sneak peak of our recent interaction sessions with the young minds who thoroughly enjoyed <https://www.linkedin.com/company/nyros-technologies/>

Regards,

Sujatha Gollapalli
